---

## ABOUT THE SEPA CHECKLIST

---

The City of Sammamish uses the information provided in the SEPA (State Environmental Policy Act) Checklist to help determine whether the environmental impacts of a proposal are significant.

The information is also helpful to determine if there are mitigation measures that will address the probable significant impacts or if an environmental impact statement will be needed to further analyze the proposal.

Complete and accurate answers often avoid delays with the SEPA process as well as later in the decision-making process.

## INSTRUCTIONS FOR APPLICANTS

---

The checklist questions apply to all parts of your project/proposal, even if you plan to do them over a period of time or on different parcels of land.

- Please answer each question accurately and carefully, to the best of your knowledge.
- You may need to consult with an agency specialist or private consultant for some questions.
- If you run out of space on the form, please attach additional pages.
- **Use “not applicable/does not apply” only when you can explain why it does not apply and not when the answer is unknown.**
- Attach any additional information that will help describe your project/proposal or its environmental effects including additional studies and reports.

The City may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

### Submittal Instructions

Complete & save this form before uploading it to MyBuildingPermit.com in the “File Upload” section along with the rest of the submittal documents.
